

**2500 Lakeview Condominium
Windowwall Replacement and Concrete Restoration Work
Consultant's Activity Report: March 11, 2008 through April 18, 2008**

HR CDC Activities:

- Continue updating estimate of probable cost.
- Continue development/refinement of various window details.
- Procure 12" x 12" bronze glass samples (6) from 4 vendors.
- Discussions with MTH Industries regarding costs for installing glass samples and PTAC unit samples.
- Participate in April 8, 2008 informational exchange meeting at 2500.
- Update/modify 90% DD Phase documents (2/29/08) to reflect comments received at 4/8/08 informational meeting.

CTL Group Activities:

- Participate in April 8, 2008 informational exchange meeting at 2500.

ELARA Energy Services Activities:

- Arrange for delivery of demonstration PTAC units to 2500 for sound and (potential) water penetration testing.
- Communications with HR CDC and various PTAC manufacturers relative to sleeve/louver/window interface details.
- Participate in April 8, 2008 information exchange meeting at 2500.

Note:

Design Development phase concluded on Tuesday, April 15, 2008. An updated/modified set of drawings and outline specifications (100% DD) will be distributed as soon as possible, along with an updated estimate of probable cost.
